

MOHAMAD NASREEN BIN MOHAMAD RAZUAN - BSc Computer Science (SE)

Nasreenrazuan@gmail.com | 013-787 4991 | www.linkedin.com/in/nasreenrazuan

PROFESSIONAL SUMMARY

Motivated graduating software engineering student passionate about technology and deep learning. Experienced in software development and problem solving, having successfully contributed to various projects that required adaptability and attention to detail. Possess strong communication skills and work effectively as part of a team. Aspire to pursue a career as a Data Analyst or in related IT roles, eager to apply and further develop analytical and technical expertise in innovation environment

EDUCATION

University Malaysia Sarawak

October 2021 – July 2025

Bachelor of Computer Science with Honours (Software Engineering)

CGPA: 3.45/4.00

Area of Expertise: Web Development, Deep Learning, Project Management, UI/UX, Requirement Elicitation

University Malaysia Sarawak

July 2020 - June 2021

Foundation in Physical Science

CGPA: 3.89/4.00 | MUET: Band 4

SKILLS

- | | | |
|----------------------------------|-----------------------------|---------------------------------|
| • Microsoft Office (Advanced) | • Canva (Intermediate) | • Redux (Intermediate) |
| • Microsoft Excel (intermediate) | • ReactJS (Intermediate) | • Git (Beginner) |
| • MySQL (Intermediate) | • TypeScript (Intermediate) | • REST Apis (Intermediate) |
| • Adobe XD (Intermediate) | • JavaScript (Intermediate) | • Data Analytics (Intermediate) |
| | • HTML/CSS (Advanced) | • Agile Methodology |

PROFESSIONAL EXPERIENCE

Innates PLT

Feb – August 2024

Front-End Developer Intern

- Developed 15+ ReactJS and TypeScript components for business dashboard, achieving 92% user satisfaction and 35% load time reduction
- Built responsive interfaces with 100% cross-browser compatibility (Chrome, Firefox, Safari, Edge) using modern CSS techniques

- Optimized API integration using Redux for state management, reducing response time by 40% and eliminating 85% data inconsistency issues and Participated in Agile development sprints and Git.

KEY PROJECTS

UNIMAS Permit to Work Application System (UNIMAS E-PTW) | *Final Year Project*

- Developed full-stack permit digitization system streamlining application processing by 65% and eliminating 90% of paper-based workflows
- Implemented multi-level approval workflows and real-time tracking serving 200+ daily users with 98% uptime
- Integrated Firebase authentication and database services reducing manual data entry by 80% and achieving 99.2% data accuracy

Makeup Service Booking System | *Software Engineering Laboratory*

- Coordinated project tasks, facilitated team meetings, and ensured milestones were met while acting as a liaison between the client and development team.
- Assisted in developing a web-based system for PERTEKMA's kiosk, implementing features for product CRUD operations, cost tracking, availability management, and sales report generation.
- Conducted user testing and incorporated feedback to improve the system's UI/UX.

LEADERSHIP AND EXTRACURRICULAR

President | *Allamanda Surau Management Unit*

Oct 2022 – Jan 2024

- Managed mosque operations and maintenance for 500+ residents
- Coordinated weekly prayer sessions and religious events
- Led committee of 10+ members ensuring smooth facility operations

Head of Executive Committee | *Allamanda Residential College*

Oct 2022 – Jan 2024

- Planned and executed data-driven programming decisions based on student feedback analysis
- Supervised committee members in executing weekly programs and charity events
- Managed project timelines and resource allocation for 15+ annual events serving 200+ students

CERTIFICATES

- | | |
|---|---|
| • RapidMiner Applications and Use Cases Professional (2024) | • RapidMiner Machine Learning Professional (2024) |
| • Google Data Analytics (2024) | • Google UX Design (2024) |
